

INFORMATION FOR MEMBERSHIP APPLICATION

- Please select and complete the appropriate Application Form (Individual or Corporate). In the case of Individual applicants, ensure you check the box for Professional, Student or Retiree, as described below.
- To help build our membership database, please complete the 'Professional Experience' and Interests section.
- Payment of the first year's subscription must accompany the application form. Failure to submit this payment will delay the processing of the application and the commencement of services.
- A copy of the Australian Association for Hydrogen Energy Constitution is available on the Association website or by request from the Secretary.
- Once the Board of the AAHE has confirmed your membership of the Association you will be sent a welcome pack and receipt for your first year's subscription.

CLASSES OF MEMBERSHIP

- (i) **SUSTAINING MEMBER** - key players, organizations and businesses seeking to play an active strategic role in the Australian hydrogen energy and fuel cells landscape. Government agencies, federal and state agencies with an interest in the role of hydrogen energy in clean energy and transportation.
- (ii) **ASSOCIATE MEMBER** - Industry, businesses and associations seeking to position themselves as key providers of hydrogen-related technologies and services, or seeking to promote the role of hydrogen energy and fuel cells among their customers and stakeholders. Government agencies, federal and state agencies with an interest in energy policy development and hydrogen energy.
- (iii) **SME and RESEARCH GROUPS** - Small and medium enterprises (2-30 employees) providing hydrogen-related technologies and services, or university/industry research groups engaged in hydrogen/fuel cell and similar Cleantech R&D.
- (iv) **PROFESSIONAL** – individuals with a strong professional interest in the hydrogen and fuel cells industry seeking to network with peers and/or perspective employers and clients
- (v) **RETIREE** - Retired professionals that want to keep abreast of developments in the field of hydrogen, fuel cells and clean technology.
- (vi) **STUDENT** - Under-graduate or post-graduate students at a tertiary institution with a strong academic or research interest in hydrogen energy and fuel cells.
